Curative Skin Soap

IS NOT only the purest, sweetest and most refreshing of nursery soaps, but contains delicate emollient properties, which purify and beautify the skin. It is a soap that can be used as often as needed without harming the living skin. It washes off the "dead" skin, nothing more. Have you observed how dry and disagreeable your hands feel sometimes after using a cheap soap? If you use such a soap often your skin will become unhealthy; it will lead to skin troubles, besides making your flesh look rough and red.

Curative Skin Soap

CONTAINS no ingredients which are in any way harmful to the skin. It is a decided and most agreeable contrast to many so-called skin soaps. Hence its continuous use realizes the finest complexion and the softest and whitest skin. It is admirably adapted to preserve the health of the skin and scalp of infants and children as well as adults.
